❖ Projects

E-commerce Website Development

Description:

Developed a full stack e-commerce web application that allows users to browse products, add to cart, and checkout securely. Implemented a responsive front-end and robust back-end for handling transactions and user data.

Technologies Used:

- React.js
- Node.js
- Express.js
- MongoDB

Responsibilities:

- Designed and implemented front-end interfaces using React.js
- Developed and maintained back-end services with Node.js and Express.js
- Integrated MongoDB for efficient data management.

Personal Blog Platform

Description:

Created a personal blogging platform where users can create, edit, and delete blog posts. Included user authentication and role-based access control.

Technologies Used:

- React.js
- Node.js
- Express.js
- MongoDB

Responsibilities:

- Developed user-friendly UI components with React.js
- Built server-side logic and APIs with Node.js.

❖ Education
